

A to A

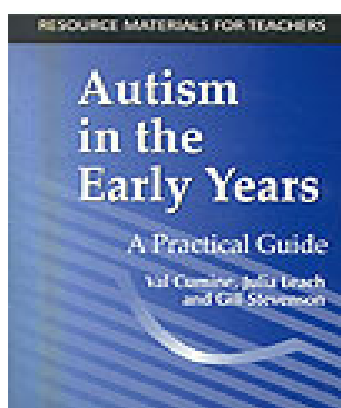

This video shows families talking about their experiences of diagnosis and the therapies which they have found to benefit their children. The video covers the following therapies and intervention programmes: Auditory Integration Training, The Boston Higashi School, Lovaas - behavioral intervention, Facilitated Communication, SPELL, TEACCH and Son-Rise at the Option Institute.

Produced by Paradogs, 1998, running time 60 mins

Autism in Schools Crisis or Challenge

The National Autistic Society surveyed teachers on the numbers of children with autistic spectrum disorders and the provision for them. This report shows that the number of children with autistic spectrum disorders (ASDs) in schools in Britain exceeds current prevalence rates. It also gives the schools' perspective on the major barriers to education provision for children with ASDs

Autism in the Early Years

This practical guide outlines the characteristics of autism as they present themselves in the early years. It looks at the nature of autism and diagnosis, offers practical strategies for effective and realistic intervention, both at home and in a variety of early years settings, and explores ways to enhance access to the early years curriculum.
